## MEETING HOSTED BY IMPERIAL COLLEGE UCU • ALL WELCOME

Racism and fascism is on the rise from Trump in the US to the rise of the fascist parties in Europe.

In Britain, a new far-right street movement is attempting to take advantage of the political crisis by scapegoating migrants, refugees and the Muslim community.

Islamophobia, antisemitism and racist attacks are on the rise, while the Windrush scandal has starkly revealed the inhumanity of the government's 'hostile environment'.

The threat is huge, but together we can turn the tide. This meeting will be discussing

The fascists are getting organised

how we can build a movement to take on racism, fascism and the far right.
